Vital Diagnostics Launches Direct A1c Reagent

Lincoln, RI, August 17, 2009. Vital Diagnostics, Inc. announces the availability of the new **Direct A1c reagent** for the Envoy 500 Chemistry System.

The new reagent is for the quantitative determination of Hemoglobin A1c in whole blood using the Envoy 500 Chemistry System. **The new Envoy 500 Direct A1c features direct, on board lysing, eliminating time consuming off-analyzer pretreatment.**

For ordering and pricing information for the new Direct A1c, please contact your Envoy 500 distributor. If you have any questions regarding the new Envoy 500 Direct A1c test, please contact Vital Diagnostics Technical Support at **1-800-345-2822** or visit us on the web at **www.vitaldiagnostics.com**.
